Education

Jakarta International University
Bachelor of Information Technology
2023 – Present

Skills

Programming Languages

- Java
- JavaScript
- PHP

Frameworks & Development

- Spring Boot
- Flutter
- React.js

Database & Data Management

- MySQL
- SQL
- Firebase
- Database Design
- Data Validation

Data Analysis & Reporting

- Microsoft Excel
- Data Cleaning
- Data Reporting
- Pivot Tables

Tools

- Git & GitHub
- REST API Integration
- Postman

Soft Skills

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Team Collaboration

Projects

Finovate — Financial Telemetry & Analytics Platform

React, Tailwind CSS, Python, FastAPI, MySQL

- Developed a financial telemetry and analytics platform to process and monitor user transaction data.
- Built dashboards for tracking spending patterns, financial activities, and category-based expense analysis.
- Implemented financial scoring and budget prediction features to provide insights for informed financial planning.

Flowva — Personal Finance Management Application

Flutter, Laravel, PostgreSQL, Firebase, Riverpod, Dio

- Developed a personal finance application for recording, organizing, and monitoring financial transactions.
- Integrated REST APIs with a PostgreSQL database to support efficient data management and processing.
- Built analytics dashboard features to provide insights into spending patterns and budgeting activities.

Student Registration Management System

Java, Spring Boot, Thymeleaf, MySQL, Tailwind CSS

- Developed a web-based registration management system for collecting and processing student application data.
- Implemented data validation and status tracking features to improve data accuracy and workflow monitoring.
- Built an administrative dashboard for managing records, monitoring registration progress, and supporting approval processes.

Leadership & Organizational Experience

Head of Volleyball Club — Jakarta International University

- Led club activities, coordinated team events, and managed member engagement.

Dormitory Person in Charge (PIC) — Jakarta International University

- Coordinated dormitory operations and facilitated communication between students and management.

Additional Information

Languages

- Indonesian (Native)
- English (Professional Working Proficiency)

Areas of Interest

- Data Analysis
- Database Management
- Software Development
- Financial Technology (FinTech)
